

TAXI

TAKE IN BREATHTAKING BACKDROPS AT EVERY TURN

Hello Jo,

Our taxi has followed in Nicole's tracks, splashing through 'Kidman's Crossing' and stopping to marvel at the many stars of 'Australia' the movie, including the Cockburn Range. It's been an epic Kimberley adventure along the Gibb River Road that would impress any Hollywood director.

Kiwi passengers Reg and Jim have immersed themselves (quite literally) in the Gibb and all its rugged grandeur, mustering cattle, soaking in thermal springs and singing by the campfire into the small hours. Read the full story on their [journey blog](#).

For our final leg to the far reaches of the North West coast, we welcome another Jim and his brother Joe on board the Extraordinary Taxi Ride. Be sure to check in for more stories from the road and the grand finale celebrations.

And don't forget, our TomTom competition closes on July 1. Get your entry in this week to win. [Enter here](#).
