CLOUD FIRST

Our Cloud First approach

At DXC Red Rock, we have a clearly defined Cloud First strategy focusing on the entire lifecycle of Oracle's Cloud offering, from assessments, to implementations, to continual improvement.

- **Cloud First Assessment.** Our specialists assess a move to the Cloud for every client, considering design, change management, enterprise architecture and ROI.
- **Cloud First Offerings.** We draw on our experience of ERP deployments worldwide, across multiple industries, to tailor our prebuilt Cloud solutions so they deliver the outcomes each client expects in a measured, efficient and timely manner.
- **Cloud First Support Services.** Our managed service model for the Cloud, which focuses on clients' business requirements post go-live, encompasses updates, road maps, user training, business process-friendly patching and ROI.
- **Cloud First Partners.** We have aligned our focus on Cloud through our partners, with each alliance bringing in a specific capability as part of our execution. Examples include embedded training, SaaS pay roll with prebuilt integrations, automated testing, automating migration to Cloud and more.

Managed Services

Our highly trained and experienced Managed Services team provides a multi-tiered suite of scalable technology and infrastructure management and support solutions. These solutions are tailored to meet each client's requirements, thereby minimising costs and maximising uptime. Our support services include Cloud First Support Services, specifically designed for businesses that have migrated their Oracle business applications to the Cloud. Cloud First Support Services provide ongoing lifecycle management of Oracle Cloud Applications including on-demand expertise, ad hoc reporting, training and 24/7 monitoring and support to help you realise the benefits of your Cloud investment and make full use of system functionality.
